## World Of Warcraft Client - Version 1.12.1 EnUS - Windows Download Pc 2022

It is a 1.12.x client, but not the last patch. You can find 1.12.2 with all the latest fixes. Just be sure to use the Launcher. To install the Launcher: Right-click the Windows Start Menu > All Programs > World of Warcraft > World of Warcraft Launcher (Set the permissions if you want) You can install the Launcher and the various patches here if you would like to test 1.12.2, as well as other fixes. 1.12.2 has been set to go live on Thursday, February 1st, however the game should already be up. We will be updating the WoW Catalog with information about 1.12.2. How To Install 1.12.1: If you have not already, make sure to backup your original WoW folder. Download 1.12.1. In the launcher click on Download button. A new folder will open. Extract it. Exit the game and delete the 1.12.1.war or 1.12.1.mwc file. If you want to play on Vanilla (the classic WoW), extract your 1.12.2.war or 1.12.2.mwc file into your /classic/ folder. If you want to play Classic Vanilla and Mists (default WoW), extract your 1.12.2.war or 1.12.2.mwc file into your /Mists/ folder. It is recommended that you start a new character as you will have to lose your data. Warning: There is no 1.12.2 yet for Battle for Azeroth Beta. If you want to play in Battle for Azeroth you will have to use the 1.12.1.war or 1.12.1.mwc file. Please note that the following changes are only for testing purposes and are not considered final: The new Visual Effects option will be available in WoW from 1.12.1 to 1.12.2 and it will allow you to switch between the classic and the modern look of World of Warcraft. This patch also includes some changes to the UI, especially the Inventory, Dungeon Finder, and the Achievements. Some minor additions and changes will also be made to the Achievements and how they appear. Please report any problems you come across with these changes.
