Now Download IDM latest version free from below. To download IDM We suggest you to Save This file on your desktop.Q: Binding to the same Object DataContext multiple times I am working on an application for which i need to bind to same instance of the object multiple times, and for each time i need to specify the row number (i cannot control the row count). Is there a way to achieve this in WPF? A: I was able to achieve the desired results using the following code. var table = Application.Current.FindResource("MyTable") as DataTable; var grid = new Grid { Width = new GridLength(100), Background = new SolidColorBrush(Windows.UI.Colors.Transparent), AutoGenerateColumns = false, RowDefinitions = new RowDefinitionCollection { new RowDefinition { Height = new GridLength(1, GridUnitType.Star) } }, CanUserAddRows = false, CanUserDeleteRows = false, ba244e880a
