I need this to update my old vista and it is currently on version 1.0.0.5 and has still bugs like disappearing pictures. But now if i try to run the file of 1.5 beta 8.rar, it is all fucked up.. i try to open it and it says loading.. i try again and again and again but it says loading. I have tried multiple times and i am a windows, i have also tried to use this web downloader, but it just wont work for me.. but it works fine for other peeps who are on windows 7 and 8. It's also been bugging me that windows 10 also wont run it, i have tried to download the latest Phoenix 1.0 and it won't run, this is the only version of phoenix i can get to run on windows 10.. so if you can give me the latest link that will work please.. Sorry for spamming you all, i will try and fix my windows.
