What's New In?

Professional grade text and tables with built-in copy-and-paste functions: The all-new FormZure® 9.0 module in AutoCAD allows you to quickly create professional-grade text, tables, and labels for use in your design work. FormZure will even let you copy, cut, paste, and type in text and tables, ready to paste directly into your drawings or export to other applications. Rapidly create simple drawings with parametric options. Use parametric options to quickly create the topology of your next design. You can create lines with parametric variations such as length, slope, tangent, or split for each line, and you can also use one of eight predefined geometric patterns for the lines. You can also create symmetrical parts using the same set of parametric options. The AutoCAD® logo has been redesigned. It is now more distinctive and modern than ever. Quadratic Bevels: Bevels and blended lines created by quadratic interpolation (bevels). Indirect painting and line blending: Create realistic and natural-looking lines and fills using line blending and the new PaintStyle command. The LiveStyle command enables you to modify the appearance of LiveStyle®-created curves and fills as you view your drawings. Updated Line Dynamic: Use the Line Dynamic command to quickly create and edit vector lines with short, editable strokes that automatically adjust their length to follow a continuous contour. Position-dependent linetypes: Linetype gallery item templates. Enhanced tooltips: New tooltips that show drawing context. Zoomed and cropped display: Zoomed and cropped display modes, without toolbars. More Camera and Scale functions: Camera toolbar. Improved Drill tool: Select the face you want to drill a hole and click the DRILL button. Draw a circle, ellipse, or polygon around the part to define the hole's shape. Convert Shape dialog box, enhancements: Convert shapes. New library of drawing tools. New Button command, with new menu options: New button dialog box, with new menu options. Paint-on-glass: For modeling

System Requirements For AutoCAD:

Recommended: Windows 7 or higher Intel i3 / Core i5 processor 4 GB or more of RAM Graphics card of DirectX 9.0 compatible DirectX compatible sound card 1024 x 768 or higher resolution screen Required: Windows 10 or higher Contents Introduction There are a lot
