What's New in the Easy Gallery Generator?

With the easy gallery generator you take some pictures that you have on your computer and all you have to do is click on a button and you now have a gallery for your pictures. To create this gallery you can choose between different skins, which is helpful if your original pictures are in different styles. You can also save your gallery to a folder on your harddisk and share it on the web, this is a nice feature. This can be done by creating a new gallery and saving it under the name you wish, and then place the new gallery in your web browser. You can also load the template from your browser and publish it to the web. Easy Gallery Generator Features: Filters: There are many different skins to choose from and each skin has a set of filters to keep the gallery looking a certain way. You will have the chance to choose from blue, pink and green. You can choose from a a striped skin, a skin with black/white, a skin with browns and a skin with blue. Easy Gallery Generator Saves: You can save the gallery to a folder on your hard disk. In order to do this you must save the gallery as the name "gallery.html" otherwise the gallery will be saved to your browser and not to your hard disk. When you are finished with the gallery you can save it in a folder on your harddisk. Easy Gallery Generator Adds : You can add additional pictures with ease. On the web you can either add the gallery to your page by simply clicking on a button, or you can download the gallery and place it in your web browser. Easy Gallery Generator Settings: You can change the skin. The colors of the skin can also be changed. You can choose from a skin with black/white, a skin with browns and a skin with blue.
