Every generation seems to have its own version of an addictive, destructive, bleak, self-destructive drug that is the source of the ultimate self-destruction. Bands like Suicide, Hole, the Kinks, Red Hot Chili Peppers, and God knows who else never seem to stop claiming the various drugs responsible for their highs and lows of creating the ugly side of the road that is rock n' roll. And each generation has its version of the drugs: alcohol, magic mushrooms, cocaine, LSD, heroin, and so on. We all know which drug is now ruining rock n' roll. Now is the time for a new generation. It's the time for kratom. "We started out going for a spin, and it was all good," so began the K-Rock Revue Kratom Burn Recovery just as the set was nearing the end of a particularly wild night of drinking. K-Rock Revue is a band that I have enjoyed many times over the years. As always, they were delivering some of the best rock n' roll I have ever heard, as they kicked off the second part of their set with a blistering, thundering rendition of Tenacious D's "The K-Rock Theme Song" before launching into "You Can't Always Get What You Want." "The K-Rock Revue's self-titled album is one of the best rock n' roll albums to come out in the last 10 years," writes Brendon O'Brien for Stereogum. "The band were able to create a sound that was both undeniable and unique, and the extended "You Can't Always Get What You Want" was perfect for marking the occasion that was a new album release. I could watch this album and never get sick of it." "A man experiences his own strength, when he abandons his fear," said Friedrich Nietzsche.
