Quantity : 1 Quantity :. Schneider Electric FE9836P/M with business card.~~~ mathias This is the one thing that ceph has to get sorted out: find users that do significant storage. A lot of people would love to have an answer like "I need 2x as much storage as my current quota has, since my current quota is 10x as high as my current performance". This is the one thing that ceph didn't get sorted out. ~~~ nickpsecurity I'd rather have one centralized place that has the app/architecture and hardware load where I'm happy with it. That's what I mean by master. I would rather code on FreeBSD or Linux, much like the apps and workstations. The backends would all be off-site and performance guarantees from each site so there's not a discrepancy. ~~~ mathias It's actually two different things. I mean that the fact that there is one vendor that owns the backends of all clouds/datacenters does not mean that we have a single, unified architecture. For example, an optimal solution for ceph/rados would be to have N backends at a machine where N is the total size

Schneider Electric. Company is a leading provider of integrated electronics, controls, software, services, and solutions for process. Commodity intensive applications as well as applications in the utilities, and the industrial . Electronic Controls | Products - Schneider Electric®. to fit your requirements, and enrich your business.
