January 23, 2017 â€” FlashFXP is a simple and efficient FTP client that can also transfer files from server to server without bypassing email. It is also great for transferring files from one host to another, for example FTP clients are often used to upload files to your server and then using it to upload files to your hosting provider. FlashFXP is the perfect solution if you want to transfer files via FTP without connecting to a server. It can be used as an alternative to the popular ftp web service. Flash Flash

Features: - Secure FTP server with no limits on the amount of transmitted traffic.
