Torrent Based ON: . Uninstall Tool 3.5.9 Build 5655. . Updating from Uninstall Tool 3.5.9 Build 5655 can unlock up to 50% of. Download Uninstall Tool 3.5.9 Build 5655. Windows.Q: How to make a checkBox readonly in VB.net I'm trying to make a checkBox read only. In the following code, I declare a Label and a checkBox. I want the user to be able to check the checkBox but the Label will display the text "No". When I try to set the ReadOnly property to True, the entire control loses all functionality, the checkBox becomes immobile, etc. I have tried using the property Attributes.checked, but it's not working. I've also tried.Enabled=False, and this was how I ended up with the label having no text. Set x = CType(Me.Controls("checkbox"), Control) x.Attributes("ReadOnly") = True Here's how the text box looks after being made read only: A: I can't reproduce your issue. I am able to make this example work... Dim x As Label Dim chk As CheckBox Dim Current As String = "" Private Sub Form1_Load(sender As Object, e As EventArgs) Handles MyBase.Load x = CType(Me.Controls("checkbox"), Label) x.Text = "Yes" x.Enabled = False x.BackColor = Color.Red End Sub Private Sub checkbox1_Click(sender As Object, e As EventArgs) Handles checkbox1.Click x.

Uninstall Tool 3.5.9 Build 5660 Multilingual Crack
