## Filmora 9 V9.2.10.4 [Wondershare]

to sum it up: filmora9 is an intermediate level editor, while filmorapro is a pro-level editor.

filmora9 is more beginner-friendly, while filmorapro is more intermediate-friendly.

filmora9 is for anyone who wants a solid, beginner-friendly editor, while filmorapro is for anyone who wants a pro-level editor. filmora9 doesn't have a built-in audio editor or titling tools, while filmorapro does. filmora is available for purchase on wondershare website as well. this version is the pro version of filmora that has many more features than filmora 9.2.10.4. the pro version comes with more than 65 effects, 37 overlays, and more than 150 sound effects. also, it does not require you to log into an account on their website to use the software. this is an improvement over the version that was just tested. filmora is a free video editor, so it should not be a shock that the program has some limitations. for example, it is limited in the number of clips you can use. also, you cannot add music to the timeline. the default background is set to black which isn't very pleasing. also, the overlays can be used to make the video feel more professional, but it is difficult to position the overlay at the exact time of the video. once you have prepared your video for export, you can choose to download your video for mobile or desktop viewing. if you choose mobile, it will be downloaded to your device for viewing. if you choose desktop, it will be converted to any format you have in your filmora library and be downloaded to your desktop. you can choose to download your video for mobile or desktop viewing.
